

BLACK VINYL

INSTALLATION AND MAINTENANCE

WHEN INSTALLING:

Make sure to rest your black vinyl railing on a non-abrasive surface at all times.

TIP: Open the box the railing came in and rest the railing on top of the cardboard.

Don't rest your vinyl on blacktop or asphalt, especially if it comes in a bag (like a vinyl sleeve does). Heat from the blacktop can warm the bag, creating a greenhouse effect and warping the vinyl.

CLEANING AND MAINTENANCE:

Vinyl is a low maintenance material but will require occasional cleansing with gentle cleaning products.

Use Simple Green and a non-abrasive cloth to remove markings.

NEVER use abrasive cloths or cleaning products.

 MANUFACTURED IN THE USA

 Superior's products are proudly designed and manufactured in the USA to ensure a quality fit and finish.
